

## Shuresafe® Model #900794 Hands-Free Intercom System

The **Shuresafe**® Model #900794 Hands-Free Intercom Console is a completely self-contained, hands-free, two-way communication system for any single channel application. It's the ideal hand-free communication solution for Gas Station Kiosks, Convenience Stores, Fast Food Windows, Security and Access Control Posts, Parking Kiosks, Toll Booths and other potentially threatening environments.

- ✓ Completely hands-free with no push-to-talk or listen buttons on the console or external 2-way speaker.
- ✓ External speaker calls to the console are announced by an alert tone.
- ✓ Console is equipped with a mute button and separate talk, listen and alert tone volume controls.
- ✓ Console is equipped with a built-in 24" stainless steel, gooseneck, and noise-canceling proximity microphone.
- ✓ System is equipped with two internal amplifiers and automatic gain control (AGC) to maintain consistent voice levels in both directions.
- ✓ Designed specifically to maximize human voice transmission in environments with high levels of background noise.
- ✓ Available as a hands-free communications system for the **Shuresafe**® Model #670330 Security Drawer.

The **Shuresafe**® Model #900793 Hands Free Intercom System with External Speaker (pictured) is a stand-alone self-contained, hands-free, two-way communication system for single channel applications with any **Shuresafe**® Drawer.

- ✓ Handsfree Intercom Console and Weather-proof Stainless Steel Speaker integrates with any **Shuresafe**® Security drawer system as an add-on component.
- ✓ Stand-by/Tone mode allows Operator to silence noise from the external speaker until customer notifies the Operator by manually pressing the "Call Button."
- ✓ Voice Mode allows the customer to automatically communicate by voice with the attendant.
- ✓ Speaker has a Stainless Steel Face plate with hermetically sealed "Push to Call" button
- ✓ Speaker Face Plate is 4 <sup>13</sup>/<sub>16</sub>"W x 7 <sup>3</sup>/<sub>16</sub>"H and requires a flush mount wall opening of 4 <sup>1</sup>/<sub>8</sub>"W x 6 <sup>1</sup>/<sub>2</sub>"H x 2"D.
